Hot Drinks

Anyone requiring a hot drink during the session may do so, but you must ensure that the drink is made, and drunk, from a thermal cup with a secure lid, which is kept out of reach of the children at all times.

Please note that the kitchen area is strictly out of bounds for the children.

Hot drinks prepared in any other containers are not allowed in any other area of the building except the kitchen.

There are thermal cups with secure lids available for staff and visitors to use, when consuming hot drinks inside or outside.

The preschool ensures there is Tea and Coffee available to staff and visitors to drink, should staff choose to drink alternative beverages they will need to purchase them for themselves.

Please ensure that the kitchen door is kept firmly shut at all times, as the door acts as a fire break if there is a fire in the kitchen.
