Smoking or Vaping

We operate a no smoking or vaping policy on both of our preschool premises.

We do not have an allocated smoking area, either inside or outside of the preschools buildings or grounds.
This is in compliance with the law.
Anyone who is found smoking or vaping on preschool or school premises will be challenged and asked to immediately extinguish their cigarettes or to stop vaping until they have left the premises.

Smoking or Vaping is not permitted anywhere within either preschool or the Primary schools grounds.

If you would like to find out more about how to quit smoking or Vaping, there are useful tips and support is available from the Nicorettte website.

https://www.nicorette.co.uk

Further support and advice can be sought from your local Doctors surgery.

Further information about the impact smoking has on your body, your health and your child's health can be found at
