Safety Indoors & Outdoors

The safety of our children and their families is paramount, we take great care to ensure our children are learning and developing in a safe environment.
Care is taken when purchasing equipment- to ensure that the items purchased are fit for purpose and safe for the children to access and use.

All the equipment made available for both children and staff is of the highest standard, equipment is checked on a regular basis and any defects are corrected or disposed of accordingly.

Concerns about any equipment should be reported either to the Manager or member of staff and action will be taken, the item will either be repaired or replaced as required, the damaged item disposed of in the appropriate manner.
Risk assessments have been carried out, of all the areas accessed by the children, and any identified issues have been addressed. The possible risks that our children may encounter during their time at preschool are regularly reassessed, to ensure that our setting remains a safe place for young children and adults.

Outside Storage
All large equipment and outdoor equipment will be stored in sheds, which are locked, and children are not permitted to go in these storage areas at any time.

Off Limits
Children are not permitted in certain designated areas. These include the office, kitchen, store cupboard, outside sheds and outside school buildings unsupervised, under any circumstances.
